## **2<sup>nd</sup> INTERNATIONAL CONFERENCE ON RECENT TRENDS IN MATHEMATICS**

**ICRTM-2025 (Hybrid Mode)**

**FEBRUARY 7-8, 2025**

### **OBJECTIVE**

The conference aims to unite international experts and emerging researchers on a shared platform, facilitating the exchange of ideas in mathematics, spanning theoretical and practical applications. Mathematics is the cornerstone for economic analysis, enabling the comprehension of global economic trends, growth forecasting, and policy impact assessment. Advanced mathematical tools, including cryptography, data mining, machine learning, and network analysis, uncover valuable insights and facilitate effective communication.

**A broader theme not limited to**

Algebra & Number Theory, Mathematical Analysis, Differential Equations, Mathematical Modeling, Optimization, Cryptography & Security Applications, Machine Learning & Artificial Intelligence, Fuzzy Set Theory & Logic, Dynamical Systems, Pure & Applied Mathematics

### **CALL FOR PAPERS**

Original research papers are invited for presentation at the conference. The contributed papers should not have been communicated or published in Journals or Proceedings. The selected high-quality papers will be published in Web of Science/SCOPUS/UGC-Care peer-reviewed Journals after the conference as per the respective Journal guidelines.
